**MONEY BLOCKS!**

**YOU'LL LOVE THIS - FAST MONEY!**

After *many* years in this business, nothing excites me much anymore...that was until *MONEY BLOCKS* came along. It may be destined to be *the fastest growing* and maybe the *biggest winner of all time!* I know that's saying a lot, but read it and see what you think. After you read it, study the concept and read it again. It's quite remarkable. When you grasp the true potential, I think you'll join immediately.

Most plans are priced either too high for some or too low for others, but people in all price categories can own Money Blocks. That makes the market segment practically unlimited for us.

I've never had anything that I can *sell*, get paid for, and still own. Until *NOW*. The blocks you own on *your* control sheet are yours permanently. Think of that! Someone pays you for *your* block and you still *own* it. Amazing! They replace you on *their* control sheet, but nothing changes on *yours*. This is a unique win-win situation. If your block is picked, you get paid. If not, you stay on the sheet getting more circulation until yours may be picked *many* times. The more blocks you own, the more yours will be picked.

*The best strategy is to take five blocks so you get the maximum exposure when your sheet is circulated.* It's good to take a couple of lower priced ones, two in the middle, and a higher priced one. The high priced one may not be picked at first, but the longer it stays on there, the more circulation it gets. You get a big payment when it *is* picked. While buying five blocks may stretch your budget, it comes back very quickly. I test mailed 100 to a good name list. It brought in over \$500. In Dec. I received *over \$4,000.* No slow month! January produced \$5,475 thru the 28<sup>th</sup>.

Another cool feature of this plan... Those who buy higher priced blocks share the same block page with those buying lower priced ones. That means *they mail for each other!* What great teamwork.

There's thousands of people waiting for the chance to own Money Blocks... *They just don't know it yet.* I plan to pass it on to as many as I can. There's no limit to the possibilities. I expect earnings like I've never experienced before. You can do the same by joining me now. This one is exciting and profitable! Best of all, it works!

Sincerely,

P. S. I've known the monitor of Money Blocks, Lawrence Walton, for several years. He is experienced and entirely trustworthy. No problem there. Just makes this more solid.
