

Why **MORE** people **RESPOND** to Money Blocks!

FACT #1: About ONE HALF of all programs are thrown out because of PRICE! Here's why:

A ... About ½ of the market consists of...People who spend \$50 or LESS on a program.

B ... The other ½ of the market consists of...People who spend \$50 or MORE on a program.

◆ BOTH **A** and **B** (above) can spend as little or as much as they please with Money Blocks!

◆ CHOICES... Own 1 block for as little as \$10 or as many as 5 blocks at prices up to \$200!

You are never alone! A \$10 block owner is on the same page with a \$100 block owner and vice versa... No matter which blocks you own, your "Page" attracts the entire market!

FACT #2: The "LIMIT OF 5 BLOCKS" Has People Helping One Another! *

☞☞ **EVERYONE SHARES THEIR PAGE WITH OTHER BLOCK OWNERS ... *Mailing for one another!***

(If you owned all 12 blocks, you would be alone and be the only person mailing them.)

*You can get more blocks as often as you wish by signing up on a different person's page each time.

FACT #3: **MANY WAYS, many people will be mailing your blocks!**

Here are 4 ways your blocks can work for you:

Scenario #1: Every time someone buys blocks that you own from your page when you mail it... you get paid the price of each block they buy from you!

Scenario #2: **BONUS:** Each time someone buys blocks NOT OWNED BY YOU from your mailing... then YOUR blocks remain on the new person's page and get mailed by them! AND... Your Blocks could remain on that person's page again when the next person joins and be mailed by each new person thereafter who buys blocks other than yours! This can occur again and again. It just grows and grows! Eventually, countless numbers of people could be mailing your blocks!

Scenario #3: Some people buy less than 4 blocks. You could own 2, and maybe 5 other people could buy 2 each on your page. That would be a total of SIX (*counting you*) people mailing your blocks! There are many possible combinations!

Scenario #4: **STRATEGY:** If you own 4 of the 12 blocks on your Blocks page, you might team up with 2 other people. Here's how: First, have one (*person #2*) buy 4 blocks FROM your page that are NOT Owned by you, Then the 3rd person buys the 4 remaining blocks from person #2's page (*your 4 remain on it*). The original Block Page for person #3 will have the 3 of you owning 4 blocks each. Now, the 3 of you own all 12 blocks! The 3 of you mail only that page! Each of you will always have 2 or more additional people mailing your blocks. Then watch as Scenario #2 (above) kicks in.

FACT #4: **YOU OWN YOUR BLOCKS FOREVER!**

Once you purchase blocks, you own them permanently on your block page with your I.D. #. No matter how many times you get paid for them, you still own them. Can be any better?

FACT #5: **THE PLAN IS GROWING FAST!**

THE BOTTOM LINE: The one ingredient that makes any program successful?

...POPULARITY! Because it's a "Hot" program!

Why? Simple arithmetic: The larger the number of people participating = More money distributed!

Best of all... Money Blocks can work for everyone.

That's why the program is so Popular!
