IMPORTANT: My leads may cost a bit more than others (*others charge more for junk lists*) because it costs real money to create a genuine list. My analysts dissect census data then merge it with public and proprietary databases, all very costly to access. All my lists are run against the USPS Change of Address Index, Social Security Death Index, and CASS certified to ensure maximum deliverability. There are no shortcuts. Mail order is a serious business and *my lists are for serious mail-order folks serious about making money*. So, are you ready to make more money? When it comes to lists, "if you buy cheap, you'll get cheap", and your costly campaign will Fail! >> **All lists work hard, especially LIST #01 - Red Hot Buyers ready to buy again!**
