

# THE ULTIMATE STAMP GENERATOR

This stamp Program will generate hundreds of forever stamps for any program you are promoting. Now the best part of this one page flyer is you won't be mailing by yourself. Everyone on this flyer paid to be on here and will be mailing this flyer. When you pay to have your name put on this flyer, everyone else will be mailing the flyer and when they get **FREE STAMPS**, so do you. Just think if every member mailed enough flyers to generate just one book of (20) **FREE STAMPS** a week that would mean everyone would receive **100 FREE STAMPS** every week. How much would that help promote your program? Imagine if every member generated 2 books or more of FREE STAMPS each week. This is a **WIN-WIN** situation.

To join this program, make 5 copies of this flyer and clearly print your name and address (or use a mailing label) on the back, also include either an email address or phone number. Please add a note stating "**Add me to your mailing list**" This is legal because you are giving something of value and receiving something in return. (Being put on their mailing list, check title 18 section 1302 & 13442 of the US postal laws) Purchase 5 books of (20) forever stamps and send the flyer and 1 book of stamps to each member on the list. It is recommended to send each member the program you are promoting as we are all looking for what's out there. You never know, you may be able to recruit someone new. The monitor is on the list and will spot check to make sure the stamps are being sent to keep out all cheaters. You will then receive your master flyer to start mailing. When your name falls off the list the monitor will send a new flyer so your name will be on as many flyers as possible.
