Huntsville, Texas - Remember when they told you to make a list of your friends and family? I did! Guess what, **NOT** too many friends left... They see me coming and run! I always had a new "Scheme" or "Pyramid". Their words, not mine. So, I "QUIT" traditional MLM, no more "Lists", no more "my products are better than your products" nonsense. Pay Plan - may land blah blah blah... I don't care about the "cutting edge" technology or their "secret banana juice", lose weight while you sleep.... How'd that work for ya? I think I got Fatter! "I'm going full time this time!" or "Just get 4 who get 4". Well, that didn't work. **THEY LIED TO ME!** Now it's 1997 - 2000, in comes the Internet; this is what we've all been waiting for, recruit in your Pajamas! No Phones, No Conference Calls, No Selling, blah blah blah... Auto Responder does all the work! If it was texting I'd say LOL but I'm not so ha ha ha! How'd the internet work for you? About the same? It worked for me I'm sure. NO more

stupid MLM, I'll wait on Fedex to deliver me money! I hope you didn't give as big a gift as I did! Wife is still mad about that one! If you're "gifting" to "get" money, is it really a gift? So I threw it all away and started over! I spent 2 years studying the "masters", not what they said, but what they actually did; and I don't mean casually study, I mean absolutely devoured. I become completely obsessed with learning to "market" like the big boys do. You might think you know, but you don't, trust me. The Big Boys are doing things that you never considered. One "Little Gem" I learned doubled my downline every month for eight months in a row. I can show you how to get **FREE** full page ads in the top Opportunity Seeker Magazines and How I mail over 50,000 postcards each month, postage **FREE!**
