

Social Security, Military Retirement and Pensions could soon be taken away! The Government needs your money!

It's just a matter of time before they confiscate Americans' Social Security, Military Retirements and Pensions because **our country has been going broke.**

But you can still have your own private **Cash Safety Net** and no longer be at the mercy of the government, through a private activity where two associates or friends keep you in the money. A group of like-minded Americans have banded together to always **receive a steady supply of cash**, regardless of what happens!

You can receive up to **\$86,000** by going through Book 1 alone, and another **\$200,000** from Book 2. You also have the option to go on to Book 3 for more than a **half million dollars!**

Computer or Internet access is not required for you to take part regardless of age or experience. **No active participating team member is left behind.**

To receive an extensive Information Packet send \$2 to:
