

For Those Few Americans
Who Love Books And
Can Actually Read...

The
Electric Book Company
PRESENTS...

DISK INCLUDES APPLICATIONS FOR MAC AND PC TO CONVERT MANY FORMATS

**THE OPPORTUNITY
TO OWN MORE BOOKS
THAN MANY SMALL
TOWN LIBRARIES!**

WE LOVE BOOKS!

And we have worked for years to compile over 40,000 books onto disks so we — and you — can now own more books than many small town libraries.

ALL ON ONE DVD DATA DISK!

Our books are formatted for Mobi Readers, ePub Readers, Kindle®, iPod®, iPad®, and all modern computers with Adobe Reader as a resident application.

Many of our books have nice color covers, tables of contents, prefaces, indexes, and page numbers just like real hard-copy books.

HUNDREDS of our pdf books have been especially formatted to fit Kindle and iPad screens without those annoying scrambled paragraphs you find in books downloaded from the internet.

**40,000+ EBOOKS! ONLY \$50!
READ THEM AT YOUR LEISURE!
SELL THEM AT YOUR PLEASURE!**

Of course, if you are a mail order entrepreneur, you will not buy these books just to say you have more books than many small town libraries; you'll buy them to sell to others for any price the market will bear. America has about a 90% literacy rate so you'll have a massive market for the disk. Many who can't read are either in prison, on welfare or living on the streets and can't use the disk in any event.

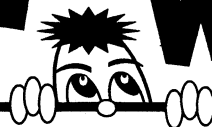

BUT HERE IS AN OFFER YOU SHOULD NOT REFUSE:

You can now purchase your own massive library of books, over 40,000 titles—mystery, romance, science fiction, western, children, pirates, fantasy, adventure, detective, business, pure pulp and more—to read on your computer or mobile reading device. **SEND JUST \$50 FOR THE COMPLETE DISK PACKET TODAY!**
