Two of the best-selling and most profitable reports were How to Get Moles Out of Your Yard & The Many Different Ways to Prepare and Serve Hamburger. These two reports sold over one million copies and made a fortune for the writers.

This is what we want – easy to understand subjects that appeal to the general public.

Keep writing, keep publishing, and you will be successful.

Here are three ways you will benefit from our program:

1. We will pay you for your tell & sell stories, ideas, papers, articles, essays, etc.
2. We will show you how to advertise information to the public.
3. We will show you how to do it cheaply in the newspapers & magazines. This is the best program in the USA. This is great, don't miss it!

Now, you can send for both programs, the writing & selling of your information and how & where to advertise it.
