

RECEIVE UP TO \$40,000.00 IN ONE YEAR

Hello,

My name is Michael Taylor. I receive \$44,000.00 a year, and you could too. The American dream of wealth and financial success in America do not just have to be a dream. Many Americans in the United States are very well off financially. Being able to buy your dream home and merchandise of material worth can be achieved with an honest days work. That is why I started this program to obtain financial success.

This is how this multi-level program works. There are six names and addresses listed at the bottom of this letter. Send \$2.00 to each name and address listed at the bottom of this letter and enclose a note that you are sending them \$2.00 to be added to their mailing list. Re-type the names and addresses located at the bottom of this letter on a separate strip of white paper. When you re-type the names and addresses, remove the name and address located in the number 1 position. Move the remaining names and addresses that is listed up one number. For example, move the name and address listed at the number 6 position up to the number 5 position. Move the name and address listed at the number 5 position up to the number 4 position, 4 to 3, 3 to 2, and 2 to 1. After you type the modified list of names and addresses on the strip of white paper, glue the modified list of names and addresses with your name and address listed at the number 6 position over the current list of names and addresses. After you glue the new list of names and addresses over the current list of names and addresses, take this letter to your local copy store and make 1,000 copies. Order 1,000 names of multi-level marketing prospects or money making prospects from a mailing list company. You can order the mailing list from E.M. Tech Mailing Lists, P.O. Box 185-Dept. 16, Bath, PA 18014. Their phone number is 1-800-788-0995. When you receive the mailing list, mail to the names on the mailing list a copy of this letter.

This is the matrix:

Level 6 You mail out 1,000 letters x a 1% response = $10 \times \$2 = \20

Level 5 10 people mail out 1,000 letters each = 10,000 letters mailed at a 1% response = $100 \times \$2 = \200

Level 4 100 people mail out 1,000 letters each = 100,000 letters mailed at a 1% response = $1,000 \times \$2 = \$2,000$

Level 3 1,000 people mail out 1,000 letters each = 1,000,000 letters mailed at a 1% response = $10,000 \times \$2 = \$20,000$

Level 2 10,000 people mail out 1,000 letters each = 10,000,000 letters mailed at a 1% response = $100,000 \times \$2 = \$200,000$

Level 1 100,000 people mail out 1,000 letters each = 100,000,000 letters mailed at a 1% response = $1,000,000 \times \$2 = \$2,000,000$

Thanks and Good Luck!
